

SwitchAir 1U Network Switch Cooling

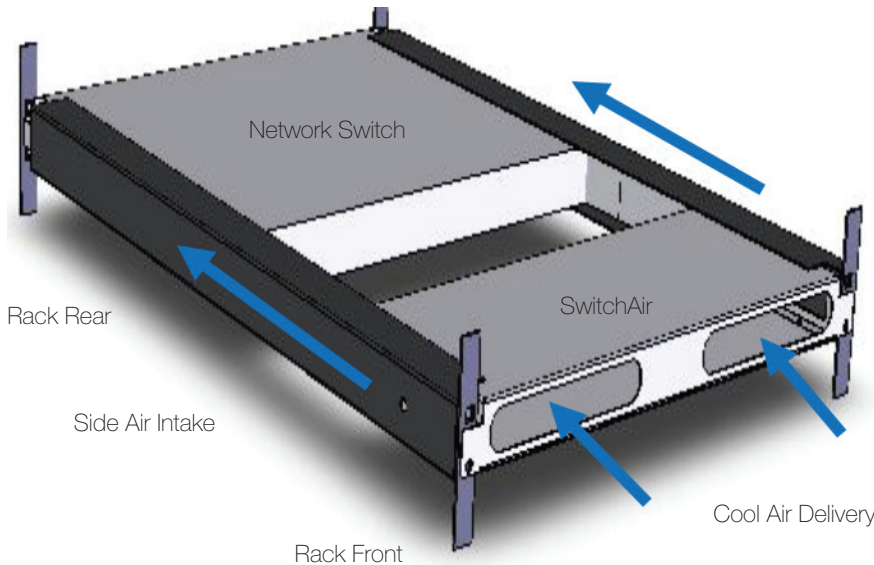

Effective cool air delivery for rear rack mounted 1U switches with side air intake.

Installation Precaution:

- Install SwitchAir such that the required airflow for safe operation of equipment is not compromised.
- Take precaution to avoid interference with the switch input power cords when installing on a live unit.

SwitchAir 1U Installed in Rack

SA1-01001NB Specification	
Rail Depth Range	27-5/8" to 29 5/8"
Chassis Depth	7"
Channel Length	27 5/8"
Airflow	Switch Generated (passive)
Switch Intake	Side
Warranty	Lifetime

Delivers cool air to network switches with side air intake.
Installs in minutes while network switch is live.
