Vertiv™ Geist™ Environmental Sensors

Overview

Environmental factors like heat, humidity and moisture pose a severe threat to mission-critical infrastructure. These dangers can be minimized by incorporating a network of environmental sensors to collect data and alert users of potential threats. Adding optional sensors to a Vertiv™ Geist™ Environmental Monitor or Rack Power Distribution Unit (rPDU) allows users to observe conditions from a secure Web interface and receive alerts via Email, SNMP, or Email-to-SMS.

Benefits

- View real time sensor data from a secure web interface.

- Receive alerts when a threshold is breached to ensure out-of-range conditions are addressed before resulting in downtime.

- Strategically monitor data center, server room and network closet environments to protect critical infrastructure.

- Simple installation and configuration on Vertiv Geist Environmental Monitors and rPDUs.

SA9123

Low voltage analog Photoelectric Smoke Alarm used to detect the presence of smoke. Features a warning signal for a low or missing battery. Single or multiple (tandem) station and specialty applications. 9VDC battery included.

Part Number: SA9123

Category: Accessories

Sub-Category: External Sensor

Specifications and Operations

Remote Sensor Type	Photoelectric Smoke Detector
Activity LED	1
Idle LED	1
Connection Interface	Analog (NO)
Input Power	120V (9VDC Battery Back-Up)
Frequency	50/60Hz
Product Warranty	5-year limited warranty if registered within 120 days of purchase, otherwise warranty defaults to 3 years
Certification/ Agency Approvals	RoHS Compliant

SL-70462 (R06/19)
